

EBG Flow Products, Inc.

GOALS TO ACHIEVE CUSTOMER SATISFACTION

- **Manufacturing expertise** – Includes hiring the most qualified machinists and engineers.
- **State-of-the-art equipment** – Both in the shops and in the offices. Consistently strive to stay on the leading edge with equipment for a company within our industry standards.
- **Benchmark Quality** – Quality means meeting all the relevant industrial technical standards, as well as complying reasonably with special-needs specifications on an order-by-order basis.
- **100% traceability** – Every end-user should be able to trace back the origin material of every part that is manufactured in our shops.
- **Immediate product availability** – Stock finished and ready-to-machine materials to suit the specifications of each customer.
